

CALL FOR PAPERS

13th European Symposium on Research in Computer Security (ESORICS 2008)

Malaga, Spain – October 6-8, 2008

<http://www.isac.uma.es/esorics08>

Papers offering novel research contributions in any aspect of computer security are solicited for submission to the Thirteenth European Symposium on Research in Computer Security (ESORICS 2008). Organized in a series of European countries, ESORICS is confirmed as the European research event in computer security. The symposium started in 1990 and has been held on alternate years in different European countries and attracts an international audience from both the academic and industrial communities. From 2002 it has been held yearly. The Symposium has established itself as one of the premiere, international gatherings on Information Assurance. Papers may present theory, technique, applications, or practical experience on topics including:

access control	accountability	intellectual property protection	security as quality of service
anonymity	applied cryptography	intrusion tolerance	secure electronic commerce
authentication	covert channels	peer-to-peer security	security administration
authorization and delegation	cybercrime	language-based security	security evaluation
cryptographic protocols	denial of service attacks	network security	security management
data integrity	formal methods in security	non-interference	security models
dependability	inference control	privacy-enhancing technology	security requirements engineering
information flow control	information warfare	pseudonymity	security verification
smartcards	steganography	subliminal channels	survivability
system security	transaction management	trustworthy user devices	information dissemination control
digital right management	data and application security	identity management	trust models and trust management policies

The primary focus is on high-quality original unpublished research, case studies and implementation experiences. We encourage submissions of papers discussing industrial research and development. Proceedings will be published by Springer-Verlag in the Lecture Notes in Computer Science series.

Paper submission

Submitted papers must not substantially overlap papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings. Papers should be at most 15 pages excluding the bibliography and well-marked appendices (using 11-point font), and at most 20 pages total. Committee members are not required to read the appendices, and so the paper should be intelligible without them. Papers must be submitted using the conference web site and following the requirements stated there. Authors of accepted papers must be prepared to sign a copyright statement and must guarantee that their paper will be presented at the conference. Additionally, they must follow the Springer Information for Authors' guidelines for the preparation of the manuscript and use the templates provided there.

Program Chairs

Sushil Jajodia *Javier Lopez*
George Mason University, USA University of Malaga, Spain

Important dates

Paper Submission due: **March 31, 2008**

Acceptance notification: **June 16, 2008**

Final papers due: **July 7, 2008**

Program Committee

Vijay Atluri, Rutgers University, USA
Michael Backes, Saarland University, Germany
David Basin, ETH Zurich, Switzerland
Gilles Barthe, INRIA, France
Marina Blanton, University of Notre Dame, USA
Jan Camenisch, IBM Research, Switzerland
David Chadwick, University of Kent, UK
Bruno Crispo, University of Trento, Italy
Frederic Cuppens, ENST Bretagne, France
Sabrina De Capitani di Vimercati, Univ. Milan, Italy
Josep L. Ferrer, Univ. of Islas Baleares, Spain
David Galindo, University of Malaga, Spain
Juan A. Garay, Bell Labs, USA
Dieter Gollmann, HUT, Germany
Antonio Gomez-Skarmeta, Univ. of Murcia, Spain
Juanma Gonzalez-Nieto, QUT, Australia
Dimitris Gritzalis, UAEB, Greece
Stefanos Gritzalis, Univ. Aegean, Greece
Jordi Herrera, UOC, Spain
Aggelos Kiayias, University of Connecticut, USA
Socrates Katsikas, Univ. Piraeus, Greece
Christopher Kruegel, TU Vienna, Austria
Michiharu Kudo, IBM Tokyo Research, Japan
Kwok-Yan Lam, Tsinghua University, China
Wenke Lee, Georgia Institute of Technology, USA
Yingjiu Li, SMU, Singapore
Peng Liu, Penn State University, USA
Fabio Martinelli, CNR, Italy
Fabio Massacci, University of Trento, Italy
Vashek Matyas, University Brno, Czech Republic
Chris Mitchell, Royal Holloway, UK
Refik Molva, Eurecom, France
Yi Mu, University of Wollongong, Australia
Peng Ning, North Carolina State University, USA
Eiji Okamoto, University of Tsukuba, Japan
Martin Olivier, University of Pretoria, South Africa
Stefano Paraboschi, University of Bergamo, Italy
Jong-Hyuk Park, Kyungnam University, Korea
Guenther Pernul, Univ. Regensburg, Germany
Bart Preneel, KUL, Belgium
Jean-Jacques Quisquater, UCL, Belgium
Indrakshi Ray, Colorado State University, USA
Peter Ryan, University of Newcastle upon Tyne, UK
Pierangela Samarati, University of Milan, Italy
Sean Smith, Dartmouth College, USA
Miguel Soriano, UPC, Spain
Vipin Swarup, MITRE Corporation, USA
Angelos Stavrou, George Mason University, USA
