Workshop scope

STM (Security and Trust Management) is a working group of ERCIM (European Research Consortium in Informatics and Mathematics). STM'10 is the sixth workshop in this series and will be held in Athens, Greece in conjunction with EUROPKI'10 and CRITIS'10, and just after ESORICS'10.

Topics of interest include, but are not limited to:

- access control
- cryptography
- digital right management
- economics of security
- key management
- ICT for securing digital as well as physical assets
- identity management
- networked systems security
- privacy and anonymity
- reputation systems and architectures
- security and trust management architectures
- semantics and computational models for security and trust
- trust assessment and negotiation
- trust in mobile code
- trust in pervasive environments
- trust models
- trust management policies
- trusted platforms and trustworthy systems
- trustworthy user devices

Instructions for paper submission

Authors are invited to submit original papers not previously published nor submitted in parallel for publication to any other conference, workshop or journal. All submissions (in PDF format) must be anonymous. They will be blind reviewed by at least three reviewers.

Post-proceedings will be published by Springer in the Lecture Notes in Computer Science (LNCS) series. Additionally, extended versions of selected papers will be published in a special issue of "Journal of Computer Security".

All submissions should comply with the "Authors Instructions" that can be found at: <http://www.springer.de/comp/lncs/authors.html> and should not exceed 16 pages including references.

Important dates

Submission of papers: ~~June 20, 2010~~ 25th of June 2010
Notification to authors: July 20, 2010
Camera-ready version: August 18, 2010
